The consolidated entity together with GPT Management Holdings Limited and its controlled entities form the stapled entity, The GPT Group (GPT).

General Property Trust is a registered scheme, GPT Management Holdings Limited is a company limited by shares, and GPT RE Limited is a company limited by shares, each of which is incorporated and domiciled in Australia. The registered office and principal place of business is the MLC Centre, Level 51, 19 Martin Place, Sydney NSW 2000.

1. OPERATING AND FINANCIAL REVIEW

Review of operations

Funds from Operations (FFO) represents GPT's underlying and recurring earnings from its operations. This is determined by adjusting statutory net profit after tax under Australian Accounting Standards for certain items which are non-cash, unrealised or capital in nature. FFO has been determined in accordance with the guidelines established by the Property Council of Australia.

The reconciliation of FFO to net profit after tax is set out below:

	30-Jun-16	30-Jun-15	Change

Operating result

GPT delivered FFO of \$269.8 million for the half year ended 30 June 2016, an increase of 8.4% on the prior comparable period. This translated into FFO per security of 15.02 cents, up 6.1%. The result was driven by solid contributions from the investment portfolio of high quality Australian retail, office and logistics properties, increased funds management fees driven by the GPT Wholesale Office Fund performance fee and lower average debt balance.

GPT's statutory net profit after tax is \$586.4 million, an increase of 39.0% on the prior comparable period, driven by \$379.9 million in property valuation increases partly offset by \$65.7 million negative mark to market and net foreign exchange movement of financial instruments.

THE GPT GROUP

Retail

(i) Operations net income

For the 6 months to June 2016 the value of the retail portfolio has decreased by \$105.3 million, this is predominantly the result of the divestment of Dandenong Plaza. The portfolio achieved a net revaluation uplift of \$43.2 million including GPT's equity interest in GPT Wholesale Shopping Centre Fund (GWSCF). The positive revaluation has been driven by favourable valuations at Highpoint Shopping Centre and Westfield Penrith offset by the negative revaluation of Sunshine Plaza.

Like for like income growth of 3.0% was driven by a high proportion of structured rental increases and continued focus on minimising expense across the portfolio. Retail sales have moderated over the 12 month period to June 2016 consistent with what was anticipated and on trend with ABS retail sales with weighted total centre sales up 3.2% and specialty annual sales up 4.2%. The portfolio remains well leased with occupancy at 99.4%

(ii) Development net income

The retail development team has focussed on master planning and delivery of development opportunities within its \$2.0 billion development pipeline. In 2016 this has included the opening of the \$34.0 million Leisure and Entertainment precinct at Casuarina Square, opening of H&M as the first stage of the International mini-major project at Charlestown Square and progressing master planning for the expansion of Rouse Hill Town Centre.

For the first half of 2016, the business unit contributed \$6.9 million to GPT's FFO (30 June 2015: \$0.9 million) driven by sale of land at Rouse Hill.

Office

(i) Operations net income

The office portfolio achieved a net revaluation uplift of \$287.3 million for the June 2016 half year end, including GPT's equity interest in GPT Wholesale Office Fund (GWOF), as a result of firming investment metrics and market rental growth. The positive revaluation has been driven by favourable valuations at Australia Square, MLC Centre, Two Park Street, Farrer Place and Melbourne Central Office.

Like for like income growth of 6.0% was achieved as a result of occupancy increasing 1.3% to 97.3% (including signed leases) as a result of continued leasing success across the portfolio. The main contribution to income growth was from MLC Centre, 2 Park St and Melbourne Central due to higher occupancy.

(ii) Development net income

The office development team delivered refurbishment opportunities in the Australia Square foodcourt and the lobby at 580 George St. The team has focussed on progressing a number of repositioning projects at Melbourne Central Tower, CBW and 750 Collins Street in Melbourne and 580 George Street in Sydney. Progress is also being made on pipeline opportunities, including the MLC Centre stage 2 retail development and the planning approval for a new tower at Darling Park.

Logistics

(i) Operations net income

The logistics portfolio achieved a net revaluation uplift of \$42.3 million, including GPT's equity interest in GPT Metro Office Fund (GMF), for the June 2016 half year end. This uplift is attributed to firming investment metrics and \$3.6 million from the Kings Park asset to bring it to sale price. Occupancy has increased to 92.7%. The weighted average lease expiry (WALE) has been maintained at a long level of 7.9 years.

(ii) Development net income

In 2016 the development logistics business unit has advanced the development of Berrinba and Wacol in Brisbane by completing the civil and servicing works for the estates.

The development pipeline has been increased with the acquisition of three land opportunities during the first half of 2016. All three acquisitions were in key industrial estates in outer Western Sydney. Of these, two land parcels are in Eastern Creek being, Lot 2012 Eastern Creek Road and Lot 21 Old Wallgrove Road and the third adds to GPT's landbank at Erskine Park.

Funds Management fee income	\$13.2m	\$8.5m	\$1.3m	\$23.0m
Performance fee income	\$14.4m	-	-	\$14.4m

(1) Total Unitholder Return

The performance of GWOF continues to be strong, achieving a one year equity IRR of 18.6%. GWSCF delivered a one year equity IRR of 5.3% which was impacted by a material revaluation loss on the Wollongong Central asset. GMF achieved a Total Unitholder Return of 23.1%.

GWOF

GWOF's assets under management have grown to \$6.1 billion, up \$0.6 billion compared to 30 June 2015. The management fee income earned from GWOF for the half year ending 30 June 2016 increased by \$15.5 million as compared to the half year ending 30 June 2015 primarily due to a \$14.4 million performance fee (30 June 2015: \$nil performance fees earned) and higher base management fee income due to strong upward revaluations across the portfolio.

Fund Terms Review

On 22 June 2016, GWOF held an Extraordinary General Meeting (EGM) in relation to changes to the terms of GWOF. At the EGM, investors were asked to vote on three resolutions. All three resolutions put to the meeting were approved by the requisite majority of Securityholders.

The key changes include:

- an increase in the base management fee from 45 basis points to 50 basis points of the gross asset value of GWOF up to \$6 billion, with 45 basis points thereafter;
- removal of the performance fee structure from 1 July 2016;
- a pay-out of accrued over performance;
- pipeline rights amended to move to a rotational basis, with both GPT and GWOF sharing access to both established assets and developments;
- GPT's minimum holding requirement in GWOF amended to 15% (previously 20%), effective from 1 July 2017; and
- the introduction of an Investor Representation Committee.

Investor Liquidity Review

On 21 July 2016, the investor liquidity review concluded which allowed GWOF securityholders to notify GPT Funds Management Limited (as Responsible Entity of GWOF) whether they require liquidity or wish to purchase additional securities. The outcome of the review was that binding requests for liquidity for a total of 92,924,217 securities, being 2.4% of securities on issue, were submitted. This equates to \$122.8 million at the 30 June 2016 current unit value of \$1.3217. Additionally, securityholders indicated demand for \$150.0 million of additional securities.

GWSCF

GWSCF's assets under management of \$3.9 billion and the management fee income earned from GWSCF of \$8.5 million have both remained flat as compared to 30 June 2015.

Liquidity Event

GWSCF's 10 year liquidity event occurs in March 2017. The management team have commenced preparations for the liquidity event and are engaging with investors during the second half of 2016.

GMF

On 4 April 2016 GMF announced a significant increase in the value of GMF's portfolio following independent valuations of all of GMF's assets at 31 March 2016. The catalyst for this was the earlier receipt of an unsolicited proposal to acquire all of the units in GMF from Growthpoint Properties Australia Limited, as responsible entity of Growthpoint Properties Australia Trust (Growthpoint). Since then, the independent directors of GMF have recommended the Growthpoint offer in the absence of a superior proposal. The likelihood of a transaction leading to the acquisition of some or all of the units in GMF will have a material impact on GMF's future prospects and subsequently, GPT's ability to earn management fees and other income from the fund.

Management expenses

Management expenses decreased to \$32.4 million (30 Jun 2015: \$33.6 million) predominantly caused by people cost savings. In the first half of 2016 GPT achieved an MER of 38 basis points on a rolling annual basis (30 Jun 2015: 40 basis points).

Non-core operations

At the end of March 2016, GPT received \$90.0 million repayment of the deferred consideration relating to the sale of Ayers Rock Resort to the Indigenous Land Corporation (ILC) in May 2011. The remaining loan balance of \$65.0 million was extended until 2024 at an interest rate of 9.0 per cent per annum. Post the May 2016 Federal Government budget approval to fund the ILC, GPT was repaid early in full on 1 July 2016.

Distribution

GPT's distribution policy is a payout ratio of approximately 95-105% of Adjusted Funds from Operations (AFFO) which is defined as FFO less maintenance capex and lease incentives.

For the half year ended 30 June 2016, a distribution of 11.5 cents, up 4.5% on 30 June 2015 distribution of 11.0 cents, was declared on 23 June 2016 and is expected to be paid on 31 August 2016.

Total number of ordinary stapled securities (million)	1,798.0	1,794.8	0.2%
NTA (\$)	4.38	4.17	5.0%

Balance sheet

- Total core assets increased by 3.2% primarily due to development capital expenditure and positive property revaluations.
- Total borrowings decreased by \$156.4 million due to net asset divestments offset by fair value adjustments of \$54.1 million to the carrying value of foreign currency debt.

Capital management

	30 Jun 16	30 Jun 15	Change
Cost of debt	4.3%	4.6%	Down by 30bps
	30 Jun 16	31 Dec 15	Change

Weighted average debt maturity	5.9 years	5.1 years	Up 0.8 years
S&P/Moody's credit rating	A (stable) / A3 (stable)	A- (positive) / A3 (stable)	Upgrade

GPT continues to maintain a strong focus on capital management, key highlights for the period include:

- Upgrade of GPT's long term rating with Standard and Poor's from A- (positive) to A (stable). Moody's rating remains unchanged.
- Reduced weighted average cost of debt by 30 basis points due to lower fixed and floating interest rates offset by higher margins.
- Net gearing decreased to 24.4% (31 Dec 2015: 26.3%), which is slightly below GPT's target gearing range of 25% to 35%. This was a result of net asset divestments and property revaluations during the period.
- Investment capacity at 30% net gearing is \$880.0 million (31 Dec 2015: \$570.0 million).
- Net profit and other comprehensive income were impacted by a \$66.3 million loss on net mark to market movements on derivatives and foreign bonds (largely due to a decrease in market swap rates during the period).

On market buy back:

On 22 April 2016, GPT announced the extension of the on market buy back for an additional 12 months until May 2017.

The Non-IFRS information included above has not been specifically audited in accordance with Australian Auditing Standards, but has been derived from note 1 and note 8 of the accompanying financial statements.

Investing activities

Investing cash inflows include proceeds from disposals and proceeds from the repayment of loans, offset by acquisitions and maintenance and development capital expenditures.

Financing activities

Significant financing cash outflows during the period included distributions paid and net repayment of borrowings.

Prospects

(i) Group

GPT is well positioned with high quality assets and high levels of occupancy. As at 30 June 2016, the Group's balance sheet is in a strong position, with a smooth debt expiry profile and net gearing slightly below the bottom of the Group's target range of 25% to 35%.

(ii) Retail

Australian retail sales grew 4.1 per cent for the year to June 2016 led by NSW and VIC. This has supported the performance of the GPT portfolio, which is strongly weighted to these states, with specialty sales up 4.2 per cent for the 12 months to June 2016. It is likely that NSW and VIC will continue to outperform, having recorded the strongest state final demand growth in the first quarter of 2016 and the strongest consumer sentiment figures in July 2016.

(iii) Office

The Eastern Seaboard office markets have continued to strengthen in the 2016 financial year with office demand in each market exceeding forecasts from 12 months prior. The markets are currently experiencing a peak in their respective supply cycles and have a limited supply outlook for the next two years. With demand forecast to remain positive during this period, vacancy rates are expected to contract and rental growth to strengthen in the short to medium term. GPT's office portfolio weighting in the Sydney and Melbourne markets should benefit from these favourable market conditions.

(iv) Logistics

The investment market for institutional grade product has been strong over the past 18-24 months, with landmark assets and portfolios transacting at yields firmer than at previous market peaks. Despite a modest growth outlook and increasing supply side issues, assets with long WALE, good review structures and secure covenants have been well sought after. The medium term outlook is for a stabilisation of yields as this investment activity tapers off, while rents are likely to remain stable. GPT's desire to increase exposure to the sector will see a continued focus on development of the existing land bank.

(v) Funds management

GPT has a strong Funds Management platform which has experienced significant growth over the past five years. The funds management team will continue to actively manage the existing portfolios, with new acquisitions and divestments reviewed based on meeting the relevant investment objectives of the respective funds. With the potential takeover of GMF and planned asset sales in GWOFF and GWSCF, it is likely that in the near term funds under management will not experience the same growth as it has in the past.

(vi) Guidance for 2016

In 2016 GPT expects to deliver between 5.0% and 5.5% growth in FFO per ordinary security and approximately 4.0% growth in distribution per ordinary security. Achieving this target is subject to risks detailed in the following section.

THE GPT GROUP

DIRECTORS' REPORT

For the half year ended 30 June 2016

Risks

The Board is ultimately accountable for corporate governance and the appropriate management of risk. The Board determines the risk appetite and oversees the risk profile to ensure activities are consistent with GPT's strategy and values. The Audit and Risk Management Committee (ARMC) supports the Board and is responsible for overseeing and reviewing the effectiveness of the risk management framework. The ARMC and through it, the Board, receive reports on GPT's risk management practices and control systems including the effectiveness of GPT's management of its material business risks.

GPT has an active enterprise-wide risk management framework. Within this framework the Board has adopted a policy setting out the principles, objectives and approach established to maintain GPT's commitment to integrated risk management. GPT recognises the requirement for effective risk management as a core capability and consequently all employees are expected to be managers of risk. GPT's risk management approach incorporates culture, people, processes and systems to enable the organisation to realise potential opportunities whilst managing adverse effects. The approach is consistent with AS/NZS ISO 31000:2009: Risk Management.

The key components of the approach include the following:

- The GPT Board, Leadership Team, employees and contractors all understand their risk management accountabilities, promote the risk awareness and risk management culture and apply risk processes to achieve the organisation's objectives.
- Specialist risk management expertise is developed and maintained internally and provides coaching, guidance and advice.
- Risks are identified and assessed in a timely and consistent manner.
- Controls are effectively designed, embedded and assessed.
- Material risks and critical controls are monitored and reported to provide transparency and assurance that the risk profile is aligned with GPT's risk appetite, strategy and values.

The Board sets the risk framework via the organisation's Risk Appetite. The Risk Appetite considers the most significant risks to which GPT is exposed and provides the Board with ongoing monitoring of risk exposures, with particular regard to the following categories of exposure:

- Investment Mandate
- Development
- Leasing
- Capital Management
- Health & Safety
- People
- Environment & Sustainability

2. EVENTS SUBSEQUENT TO REPORTING DATE

GPT sold its 12.98% investment in GMF for \$40.9 million (\$2.45 per unit) on 1 July 2016. This is \$1.9 million higher than the investment balance at 30 June 2016.

The remaining Ayers Rock Resort deferred consideration receivable of \$65.0 million was received in full on 1 July 2016.

GPT sold 2-4 Harvey Road, Kings Park for a total consideration of \$50.3 million on 4 July 2016.

The Directors are not aware of any other matter or circumstance occurring since 30 June 2016 that has significantly or may significantly affect the operations of GPT, the results of those operations or the state of affairs of GPT in subsequent financial years.

NOTES TO THE FINANCIAL STATEMENTS

Half year ended 30 June 2016

These are the consolidated financial statements of the consolidated entity, GPT Group (GPT), which consists of General Property Trust (the Trust), GPT Management Holdings Limited (the Company) and their controlled entities.

The notes to these financial statements have been organised into sections to help users find and understand the information they need to know. GPT has also provided additional information where it is helpful to understand GPT's performance.

The notes to the financial statements are organised into the following sections:

Note 1 - Result for the half year: focuses on results and performance of GPT.

Note 2 to 3 - Operating assets and liabilities: provides information on the assets and liabilities used to generate GPT's trading performance.

Note 4 to 7 - Capital structure: outlines how GPT manages its capital structure and various financial risks.

Note 8 to 12 - Other disclosure items: provides information on other items that must be disclosed to comply with Australian Accounting Standards and other regulatory pronouncements.

Key judgements and estimates

In applying GPT's accounting policies, management has made a number of judgements, estimates and assumptions regarding future events. The significant judgements made and the key sources of estimates for this half year end were the same as those applied to the last annual financial report for the year ended 31 December 2015.

RESULT FOR THE HALF YEAR

1. SEGMENT INFORMATION

GPT's operating segments are described in the table below. The chief operating decision maker monitors the performance of the business on the basis of Funds from Operations (FFO) for each segment. FFO represents GPT's underlying and recurring earnings from its operations, and is determined by adjusting the statutory net profit after tax for items which are non-cash, unrealised or capital in nature. FFO has been determined based on guidelines established by the Property Council of Australia.

In late 2015, GPT announced a business restructure which moves from an operational model to a functional, sector-based approach. As a result, the presentation of the segment note has been updated accordingly to reflect the revised operating segments. The comparatives have been restated to be consistent with the presentation of current period.

Segment	Types of products and services which generate the segment result
Retail	Ownership, development (including mixed use) and management of predominantly regional and sub-regional shopping centres as well as GPT's equity investment in GPT Wholesale Shopping Centre Fund.
Office	Ownership, development (including mixed use) and management of prime CBD office properties with some associated retail space as well as GPT's equity investment in GPT Wholesale Office Fund.
Logistics	Ownership, development (including mixed use) and management of logistics and business park assets as well as GPT's equity investment in GPT Metro Office Fund.
Funds Management	Management of three Australian property funds in the retail, office and metropolitan office and business park sectors.
Corporate	Cash and other assets and borrowings and associated hedges plus resulting net finance costs, management operating costs and income tax expense.

(1) Securities issued – institutional placement and security purchase plan
Equity raising comprised a \$325 million institutional placement and a \$50.0 million security purchase plan. The funding was used to fund the redemption of exchangeable securities. Refer to note (2) below.

(2) Exchangeable Securities

On 27 November 2008, 2,500 Exchangeable Securities (ES) were issued to an affiliate of GIC Real Estate Pty Limited (GIC RE) at \$100,000 per exchangeable security. The ES were exchangeable into stapled securities at GIC RE's option subject to obtaining necessary approvals at an initial exchange price of \$3.883 per stapled security in accordance with the terms of the agreement. The ES offered discretionary distributions of 10% per annum and carried voting rights in GPT. On 28 January 2015, GPT redeemed the ES GIC for \$325.0 million, plus accrued distribution.

During the period, the redemption deficit of \$84.5 million was transferred to retained earnings.

Total borrowings⁽²⁾ - fair value	2,811.0	2,958.3

(1) Including unamortised establishment costs, fair value and other adjustments.

(2) For the majority of the borrowings, the carrying amount approximates its fair value. Where material difference arises, the fair value is calculated using market observable inputs (level 2) and unobservable inputs (level 3). Excluding unamortised establishment costs.

All borrowings with maturities greater than 12 months after reporting date are classified as non-current liabilities.

The maturity profile of borrowings is provided below:

	Total facility ⁽¹⁾	Used facility ⁽¹⁾	Unused facility
	\$M	\$M	\$M
Due within one year	29.3	24.3	5.0

Debt covenants

GPT's borrowings are subject to a range of covenants, according to the specific purpose and nature of the loans. Most bank facilities include one or more of the following covenants:

- Gearing: total debt must not exceed 50% of total tangible assets; and
- Interest coverage: the ratio of earnings before interest and taxes (EBIT) to finance costs is not to be less than 2 times.

A breach of these covenants may trigger consequences ranging from rectifying and/or repricing to repayment of outstanding amounts. GPT performed a review of debt covenants as at 30 June 2016 and no breaches were identified.

10. FAIR VALUE DISCLOSURES – FINANCIAL INSTRUMENTS

Information about how the fair value of financial instruments is calculated and other information required by the accounting standards, including the valuation process, critical assumptions underlying the valuations and information on sensitivity are disclosed in the table below.

The different levels of the fair value hierarchy have been defined as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(a) Fair value measurement, valuation techniques and inputs

Class of assets / liabilities	Fair value hierarchy	Valuation technique	Inputs used to measure fair value	Unobservable inputs	Unobservable inputs
				30 Jun 2016	31 Dec 2015
Derivative financial instruments	Level 2	Discounted cash flow (adjusted for counterparty creditworthiness)	Interest rates	Not applicable - all inputs are market observable inputs	
			Basis		
			CPI		
			Volatility		
			Foreign exchange rates		
	Level 3		Interest rates	Not applicable - market observable input	
			CPI Volatility	0.95%	0.96%
Available for sale financial assets	Level 3	Discounted cash flow	Discount rate	30%	30%
			Foreign exchange rates	Not applicable - observable input	Not applicable - observable input

Counterparty credit worthiness Credit value adjustments are applied to derivatives assets based on that counterparty's credit risk using the observable credit default swaps curve as a benchmark for credit risk.

Debit value adjustments are applied to derivatives liabilities based on GPT's credit risk using GPT's credit default swaps curve as a benchmark for credit risk.

(b) Movements in level 3 financial instruments

The following table presents the changes in level 3 financial instruments for recurring fair value measurements. GPT's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

	Unlisted equity securities	Available for sale financial asset	Derivative assets	Derivative liabilities	Total
Opening balance 1 January 2015	6.0	-	-	(22.6)	(16.6)
Fair value movements in comprehensive income - Still held	(6.0)	8.6	-	4.2	6.8
Closing balance 31 December 2015	-	8.6	-	(18.4)	(9.8)
Opening balance 1 January 2016	-	8.6	-	(18.4)	(9.8)
Fair value movements in comprehensive income - Still held	-	2.4	-	2.4	4.8
Closing Balance 30 June 2016	-	11.0	-	(16.0)	(5.0)

(c) Sensitivities

The table below summarises the impact from the change of significant inputs on GPT's profit and on equity for the period.

	Change of significant input	30 Jun 16	31 Dec 15
		\$M	\$M
Fair value of level 3 derivatives		(16.0)	(18.4)
	1% increase in interest rates gain	4.5	5.5
	1% decrease in interest rates (loss)	(4.6)	(5.6)
Fair value of level 3 available for sale financial asset		11.0	8.6
	5% increase in discount rate - gain/(loss)	(2.1)	(1.8)
	5% decrease in discount rate - gain/(loss)	2.6	2.3

11. ACCOUNTING POLICIES

(a) Basis of preparation

The financial report has been prepared:

- in accordance with the requirements of the Trust's Constitution, *Corporations Act 2001*, Australian Accounting Standards (AAS) and other authoritative pronouncements of the Australian Accounting Standards Board and International Financial Reporting Standards;
- on a going concern basis in the belief that GPT will realise its assets and settle its liabilities and commitments in the normal course of business and for at least the amounts stated in the financial statements. The net deficiency of current assets over current liabilities at 30 June 2016 of \$74.9 million arises as a result of the inclusion of the provision for distribution payable to stapled securityholders. GPT has access to undrawn financing facilities of \$547.0 million as set out in note 7;
- under the historical cost convention, as modified by the revaluation for financial assets and liabilities and investment properties at fair value through the Consolidated Statement of Comprehensive Income;
- using consistent accounting policies with adjustments to bring into line any dissimilar accounting policies being adopted by the controlled entities, associates or joint ventures; and
- in Australian dollars with all values rounded in the nearest hundred thousand dollars in accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, unless otherwise stated.

This interim financial report does not include all the notes of the type normally included within the annual financial report. Therefore, it is recommended this report be read in conjunction with the annual financial report for the year ended 31 December 2015 and any public announcements made by GPT during the interim period in accordance with the continuous disclosure requirements of the ASX Listing Rules.

In accordance with Australian Accounting Standards, the stapled entity reflects the consolidated entity. Equity attributable to other stapled entities is a form of non-controlling interest and, in the consolidated entity column, represents the contributed equity of the Company. GPT has relied on class order 13/1050 and therefore continues to present consolidated financial statements of all the entities in a stapled group in one financial report.

As a result of the stapling, investors in GPT will receive payments from each component of the stapled security comprising distributions from the Trust and dividends from the Company.

The interim financial report was approved by the Board of Directors on 10 August 2016.

(b) Significant accounting policies

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period with the exception of new and amended standards and interpretations commencing 1 January 2016 which are to be adopted when applicable.

New and amended accounting standards and interpretations commencing 1 January 2016

There are no significant changes to GPT's financial performance and position as a result of the adoption of the new and amended accounting standards and interpretations effective for annual reporting periods beginning on or after 1 January 2016.

(c) New accounting standards and interpretations issued but not yet applied

The following standards and amendments to standards are relevant to GPT.

Reference	Description	Application of Standard
AASB 9 <i>Financial Instruments</i>	AASB 9 addresses the classification, measurement and de-recognition of financial assets and financial liabilities and also introduces expanded disclosure requirements and changes in presentation. When adopted, this could change the classification and measurement of financial assets and financial liabilities. The new hedging rules align hedge accounting more closely with the reporting entity's risk management practices. As a general rule it will be easier to apply hedge accounting going forward. Changes in own credit risk in respect of liabilities designated at fair value through profit and loss must now be presented in other comprehensive income. In December 2014, the AASB made further changes to the classification and measurement rules and also introduced a new impairment model.	1 January 2018
	GPT is in the process of assessing any implications of this new standard to its operation and financial results and the potential effects have not been fully determined.

AASB 15 <i>Revenue from Contracts with Customers</i>	AASB 15 will replace AASB 118 <i>Revenue</i> and AASB 111 <i>Construction Contracts</i> . It is based on the principle that revenue is recognised when control of a good or service is transferred to a customer. It contains a single model that applies to contracts with customers and two approaches to recognising revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognised. It applies to all contracts with customers except leases, financial instruments and insurance contracts. It requires reporting entities to provide users of financial statements with more informative and relevant disclosures.	1 January 2018
	GPT is in the process of assessing any implications of this new standard to its operation and financial results and does not expect a significant impact from its application.	
IFRS 16 <i>Leases</i>	IFRS 16 will change the way lessees account for leases by eliminating the current dual accounting model which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, there will be a single, on-balance sheet accounting model that is similar to the current finance lease accounting. This new treatment will result in both a depreciation and interest charge in the Statement of Comprehensive Income. In contrast, lessor accounting will remain similar to current practice.	1 January 2019

12. EVENTS SUBSEQUENT TO REPORTING DATE

GPT sold its 12.98% investment in GMF for \$40.9 million (\$2.45 per unit) on 1 July 2016. This is \$1.9 million higher than the investment balance at 30 June 2016.

The remaining Ayers Rock Resort deferred consideration receivable of \$65.0 million was received in full on 1 July 2016.

GPT sold 2-4 Harvey Road, Kings Park for a total consideration of \$50.3 million on 4 July 2016.

The Directors are not aware of any other matter or circumstance occurring since 30 June 2016 that has significantly or may significantly affect the operations of GPT, the results of those operations or the state of affairs of GPT in subsequent financial years.

DIRECTORS' DECLARATION

Half year ended 30 June 2016

In the directors of the Responsible Entity's opinion:

- (a) the financial statements and notes set out on pages 11 to 28 are in accordance with the *Corporations Act 2001*, including:
 - complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - giving a true and fair view of GPT's financial position as at 30 June 2016 and of its performance for the half year ended on that date; and
- (b) the financial statements and notes comply with International Financial Reporting Standards as disclosed in note 11 to the financial statements.
- (c) there are reasonable grounds to believe that GPT will be able to pay its debts as and when they become due and payable. The net deficiency of current assets over current liabilities at 30 June 2016 of \$74.9 million arises as a result of the inclusion of the provision for distribution payable to stapled securityholders, GPT has access to undrawn financing facilities of \$547.0 million as set out in note 7 to the financial statements.

The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer as required by Section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with the resolution of the directors.

Independent auditor's review report to the Unitholders of General Property Trust

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of General Property Trust (the Trust), which comprises the consolidated statement of financial position as at 30 June 2016, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration for the Trust and its consolidated entities (the consolidated entity). The consolidated entity comprises the Trust and the entities it controlled during that half-year, including GPT Management Holdings Limited and its controlled entities.

Directors responsibility for the half-year financial report

The directors of GPT RE Limited (the responsible entity) are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error. In Note 11, the directors also state, in accordance with Accounting Standards AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Trust, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Trust is not in accordance with the *Corporations Act 2001* including:

1. giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the half-year ended on that date;
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
